Fire Warden

Number of delegates: 6
Duration: 1/2 day
Location: Horsley Cross

Who should attend

This training course is designed to introduce delegates to the identification and control of fire risks.
It is suitable for people with responsibility for overseeing fire safety - fire wardens and fire marshals, as well as line managers, supervisors and safety representatives.

Objectives

On successful completion of the training course the delegates will be able to demonstrate an understanding of:

- Basic principles of fire, heat transmission and spread of heat
- Classification of fires
- Common causes and consequences of fires in the workplace
- Fire prevention
- Fire Safety Legislation
- Control measures to minimise the risk of fire
- Fire detection, fire warning and firefighting equipment
- Requirements for fire plans
- Emergency evacuation procedures
- Fire Warden's Duties
- Record Keeping
- Full explanation on extinguisher types, their uses and limitations
- Fire drills and safe evacuations of buildings
- Overview of use of Fire Extinguishers

Learning approach

75% theory-based using PowerPoint presentations, demonstrations, videos and open discussions.
25% practical-based demonstrating how to complete risk assessments, evacuation procedures and overview of fire extinguishers.

Pre-requisites

None required
On successful completion of this course, delegates will receive a certificate of attendance.
