# Correlation

**Number of delegates:** 8  
**Duration:** 1 day  
**Location:** Horsley Cross

## Who should attend

This course is designed for any signalling staff who need to perform correlation work.

## Objectives

On successful completion of this course the delegate will be able to:

- Understand the requirements to work safely on a live working railway
- Carry out inspection and wire count of locations, equipment rooms, control panels and trackside equipment
- Carry out earth busbar and location checks on arrival
- Record legible correlation results
- Hand trace wires in to investigate incorrect diagrams

## Learning approach

40% classroom based training using PowerPoint presentations and practical scenarios  
60% practical based performing correlation in a live location case

A theory and practical assessment will take place at the end of the course to assess the delegates understanding and knowledge.

## Pre-requisites

Ideally the candidate would have attended SPWEE and Diagram Reading training courses and have a good working knowledge of the railway infrastructure.
