

## Basic Signalling Two

**Number of delegates:** 8

**Duration:** 5 days

**Location:** Horsley Cross

### Who should attend

Delegates who want to further their career in Railway Signalling and widen their existing knowledge into more advanced areas.

### Objectives

On successful completion of the training course the delegates will be able to:

- Demonstrate an understanding in different power supplies and know their uses
- Identify different cables and wires in a variety of signalling equipment and associate them with relevant diagrams
- Understand signalling diagrams associated with point controls and indicators
- Explain and demonstrate an understanding of basic fault finding techniques
- Understanding some maintenance techniques and know where to look for information

### Learning approach

50% classroom-based, 50% practical based  
Theory and practical assessments

### Pre-requisites

Ideally the candidates would have attended a Basic Signalling One course or have equivalent experience
